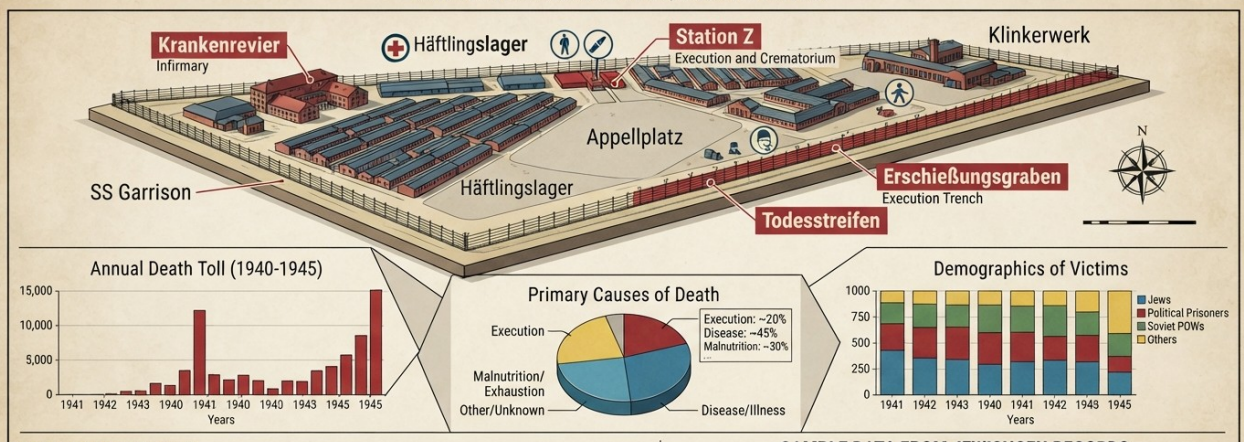
ANALYSIS OF SACHSENHAUSEN CONCENTRATION CAMP DEATHS (1940-1945)

Based on Historical Data from JewishGen Records



EXPLANATORY NOTES:

This diagram visualizes the mortality patterns at Sachsenhausen, a camp characterized by systematic execution, medical neglect, forced labor, and brutal conditions. The data highlights the genocidal nature of the camp, particularly the mass murder of Soviet POWs and Jewish prisoners in 1942 and the high death toll during the final evacuations.

SAMPLE DATA FROM JEWISHGEN RECORDS

DATE OF DEATH	NAME (INITIALS)	AGE	CAUSE OF DEATH	NATIONALITY
15.01.1942	A. Klein	34	Enteritis	Polish-Jewish
22.05.1942	M. Ivanov	29	Execution	Soviet POW
11.09.1943	S. Levy	41	Exhaustion	German-Jewish
11.09.1943	S. Levy	46	Exhaustion	German-Jewish
